

AI-techpack Importer

Are you still manually entering buyers techpack information by hand?

Isn't it time to use Artificial Intelligence for this?

There is so much work involved in typing in all the information from buyer techpack. Create the styles, the colourways, the size spec, the BOM etc.

AI-Techpack-Importer can do all this automatically, saving so much time and energy!

3 SIMPLE STEPS

- Drag-and-drop your buyer Techpacks in the program
- The system will automatically extract the relevant data and present a screen for confirmation
- On confirmation, the information will be imported & the relevant objects will be created in the system
